Discover the Latest Natural Ingredient for Scientifically Proven Deep Skin-Depigmenting and Sun Protective Mechanisms Beyond Antioxidation

Natural e³ Palm Tocotrienols Derived from Nature, Driven by Science

Frost and Sullivan 2010 Asia Pacific Excellence in Research Award in Natural Vitamin E Market

- Deep skin-depigmenting activity through tyrosinase inhibition
- Reduces melanin synthesis **55 times** more than other skin-depigmenting agents
- **60 times** more antioxidation than standard Vitamin E
- High Radical Skin Factor (RSF) to support the skin's built-in antioxidation properties
- Promotes skin hydration and skin repair

Natural e³

A balanced blend of tocotrienol-rich complex extracted from oil palm using proprietary state-of-the-art technology. Sourced only from GMO-free palm fruits that are fully traceable to its parent company, The Kuala Lumpur Kepong Berhad Group (RSPO certified). Scientifically proven to be generally safe, non-irritant, non-mutagenic. Available in high purity (>95%) and high quality oils, powders and water-soluble formulations that can be readily incorporated in cosmetics and personal care products. **We accept custom formulations to meet your needs for a wide variety of applications.**

- ◆ FDA GRAS Certified
- ◆ Halal and Kosher Certified
- ◆ ISO and HACCP Certified
